# Skills Demand for the Future Report: Singapore's key growth areas

The **Digital Economy** has been gathering pace, powered by Smart Nation initiatives and the National Artificial Intelligence Strategy<sup>3</sup>. Today, digitalisation is a key driver of growth, and Digital Economy jobs can be found across all 23 sectors with **Industry Transformation Maps (ITMs)**<sup>4</sup>.

The **Green Economy** involves enterprises that are restructuring and creating new business functions by shifting from environmentally harmful business activities to greener ones. Today, more than 450 job roles across 17 sectors require green skills, from manufacturing and trade & connectivity, to financial services, hospitality and built environment.

The **Care Economy** is driven by an ageing population, evolving demands for care and the future of work and learning. This is part of national efforts to transform and protect health, advance human potential and inculcate lifelong learning. These efforts will leverage data to bring about innovations in new care models, teaching and learning, and health and wellness.

# Skills Demand for the Future Report:

## Critical Core Skills (CCS), or skills-to-build-skills for the *Future of Work*

*School Values: Kindness, Integrity, Resilience, Responsibility, Creativity*

### Thinking Critically

These are cognitive skills needed to think broadly and creatively, in order to see connections and opportunities in the midst of change. Cognitive skills are the root of technical skill development and progression.

### Interacting with others

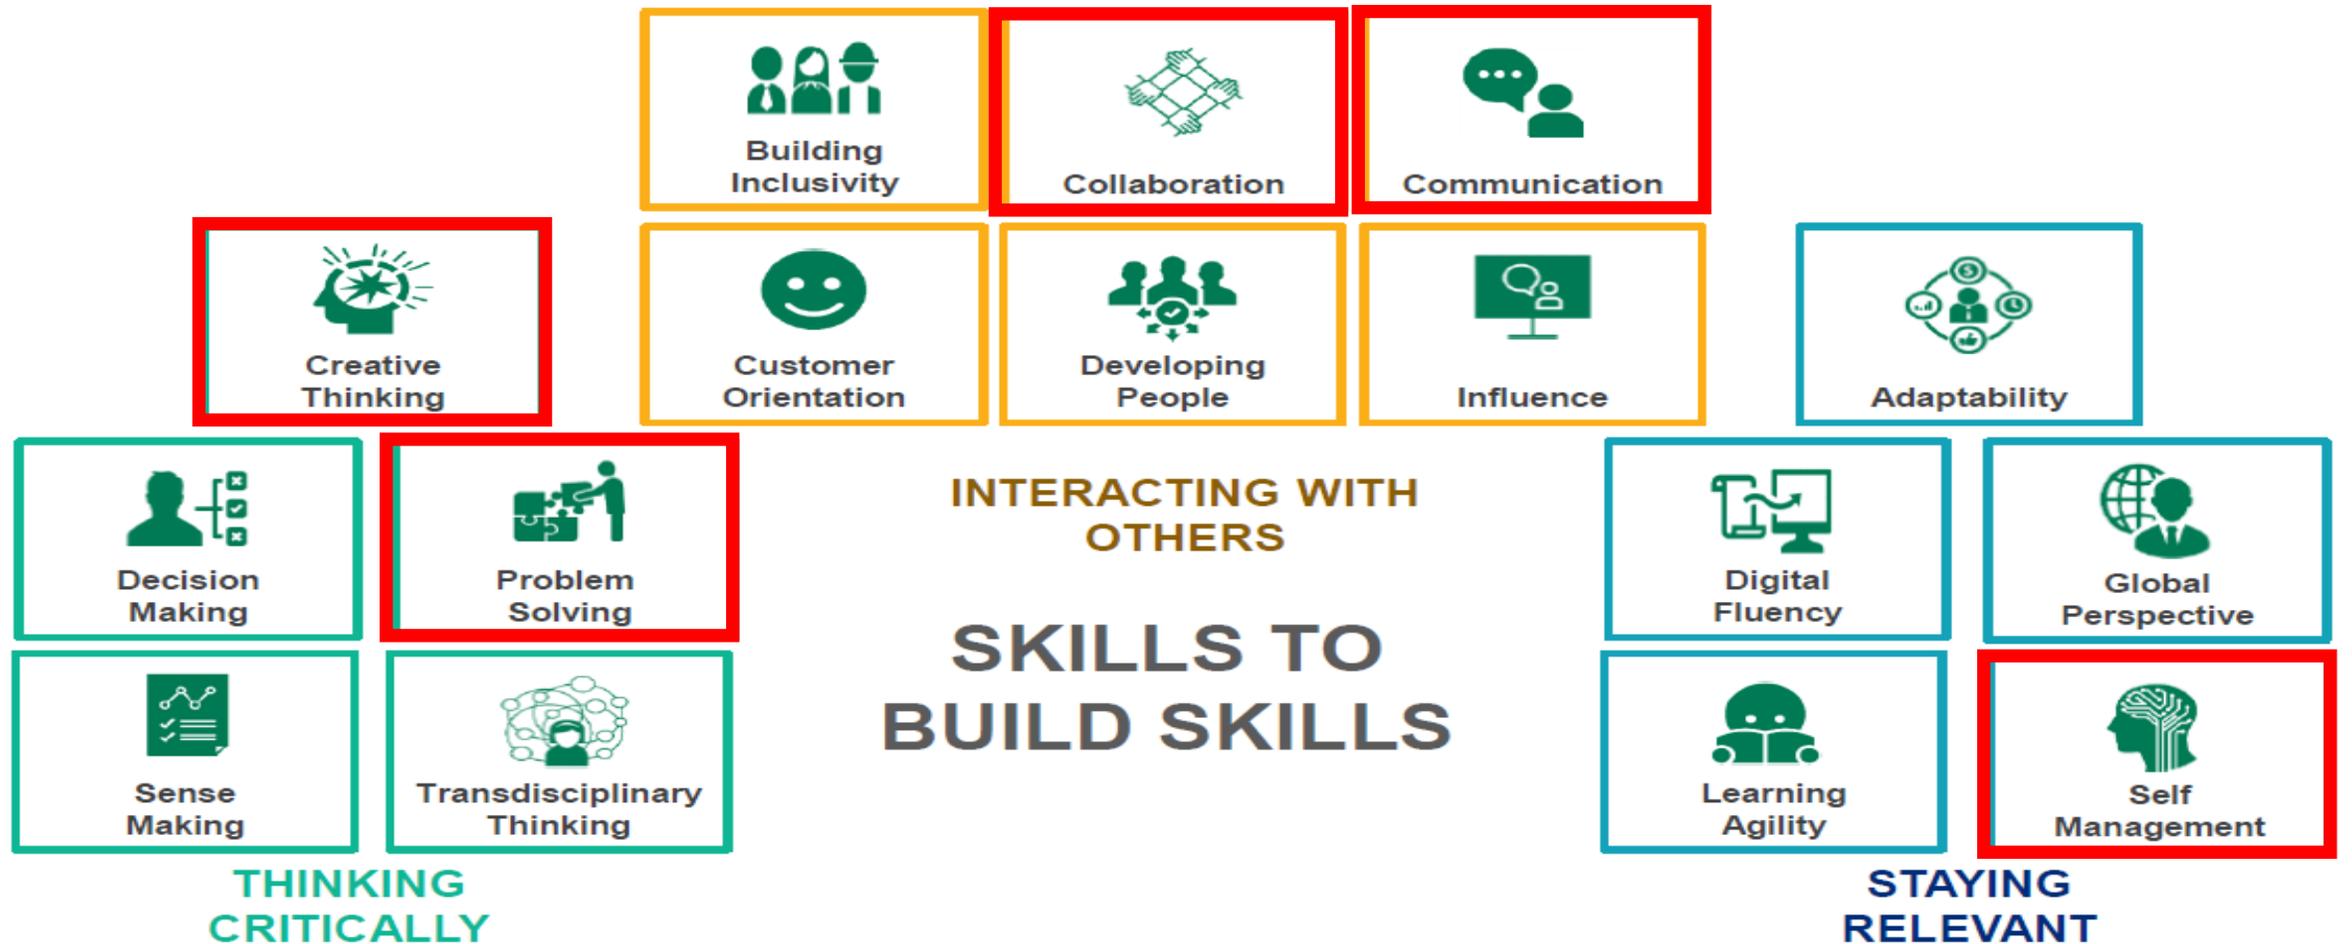

Being effective at interacting with others means thinking about the needs of others, as well as being able to exchange ideas and build a shared understanding of a problem or situation. Increasingly, individuals need to be able to combine their technical skills with others to succeed.

### Staying Relevant

Managing oneself effectively, and paying close attention to trends impacting work lives, helps create strategies, direction and motivation for technical skill development.

## Ways to demonstrate *our School Values*

*School Values: Kindness, Integrity, Resilience, Responsibility, Creativity*

### KINDNESS

I speak gently and kindly

I think of others' feelings before I act.

I show care and concern for people, animals and the environment.

I am compassionate and help others in need without asking for anything in return.

### INTEGRITY

I always speak the truth

I own up when I make a mistake, and learn from it.

I have the moral courage to make the right decisions

I choose to do what is morally right even when no one is watching.

### RESILIENCE

I persevere / keep trying in the face of challenges.

I adapt to changes that come my way.

I pick myself up and become stronger when the going gets tough.

I know I will reach my goal when I try hard enough.

### RESPONSIBILITY

I set my targets and monitor my own progress.

I do the right thing at the right time at the right place.

I do everything to the best of my ability.

I know that my action has an impact on others and will think before I act.

### CREATIVITY

I express myself and share my views openly and respectfully.

I am eager to learn new things and try out new ideas with others.

I think of different ways to solve a challenge or make things better.

I turn new ideas into reality that benefits the class, school and the community.

## Growth Mindset

**GROWTH**  
mindset

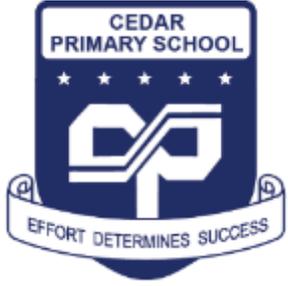

**FIXED**  
mindset

**A person with a growth mindset is someone who:**

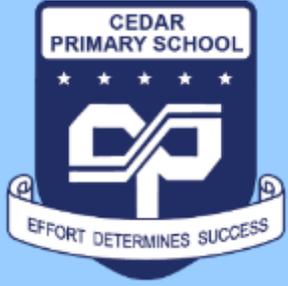

- Believes that skills and intelligence can be grown and developed.
- Embraces challenges and sees them as opportunities to grow.
- Values effort as essential on the path towards mastery.
- Is receptive to feedback and sees mistakes as learning opportunities.
- Is inspired by the success of others

A person with a growth mindset is set for life. He or she is a lifelong learner.

# Developing your child's Growth Mindset

- **Compliment Growth.** Don't Praise Ability Or Intelligence: That promotes a fixed mindset. **Compliment effort, process and choices.**
- **Tie Good Outcomes To Effort:** Don't Ignore Outcome. You can be happy when your child succeeds, but attribute it to effort.
- **Respond Positively To Failure:** They need to know that failure isn't bad, it's a tool for improving.
- **Help Your Child Set Goals:** Don't Just Say "Try Hard." Blind repetition doesn't work. Help Your Child Strategize.
- **Teach Growth Mindset In All Areas Of Life:** There's no area where they cannot improve with hard work.
- **Role Model Growth Mindset.** Talk To Your Child About Your Own Growth Mindset Efforts: Practice it yourself and share your results.

# Studying at home: Suggestions for parents

*School Values: Kindness, Integrity, Resilience, Responsibility, Creativity*

- **Create a study corner at home;** away from distracting things, to allow he/she to concentrate on this school work and revisions.
- **Develop a Study Plan with your child.** Ensure that there is a good balance of study, play and rest.
- **Supervise and provide support** for child's learning; encourage the child or praise him or her when appropriate.
- Encourage your child to **revise with classmates who are good role models** of learning .
- **Reinforce good study habits** and attitudes; for example by handing in homework on time and participating actively in class and to ask when in doubt.
- **Be mindful of the relative stress** arising from school homework and out-of-school activities, and help your child prioritise his/her time among these activities; and
- **Work in partnership with teachers** to support your child's learning and development.

**Be GREAT!**

**G**ive.

**R**elate, **R**ead, **R**eflect, **R**est.

**E**xercise. Stay healthy.

**A**ppreciate. Be Grateful.

**T**ry. Learn something positive and new.

*Thank You*
